

Title:

Enterprise AI Knowledge Assistant – Platform Documentation

Overview

The Enterprise AI Knowledge Assistant helps employees quickly find information across company documents using natural language queries.

Features

- Document search
- Question answering
- Context-aware responses
- Integration with internal knowledge bases

Supported File Types

The system can process:

- PDF
- DOCX
- TXT
- Markdown

Example Queries

Employees can ask questions like:

- "What is the leave policy?"
- "How do I reset my password?"
- "How do I access VPN?"

Architecture Overview

The system uses:

- Document ingestion pipeline
- Vector embeddings
- Semantic search
- Large Language Models (LLMs)
